ABOUT INTERSECT BY LEXUS

After Tokyo in 2013, Dubai is the second city in the world to host
INTERSECT BY LEXUS.

Developed by Masamichi Katayama (Wonderwall Inc.),
the world-renowned interior designer,
INTERSECT BY LEXUS is a place like no other in the city.

Neither a dealership, nor a traditional retail space,
Intersect by Lexus is a third space between home and work
for our guests to experience the Brand without getting
behind the steering wheel of one of our cars.

A high attention to details can be seen across the space.
Among many others, the bamboo wall is a design representation
of the Lexus Spindle Grille while the banquettes are made of the same
leather used in the Lexus LFA supercar.

To find out more, please feel free to ask any of our staff members about
the story and details behind INTERSECT BY LEXUS.
